

Annual GETS Card Validation

The National Communications System (NCS) requires an annual validation of all GETS card users. Your agency point of contact (POC) will be receiving a notice from the NCS GETS Program when it is time for you to verify the accuracy of your GETS account information. If your agency's cards are not validated, the GETS Program MUST initiate cancellation proceedings on all GETS cards in your agency. Please be sure you are engaged with this process and validate your agency's user accounts.

If you have any questions, please contact Jennette Wilkins with the ADOA Telecommunications Program Office. Jennette can be reached at 602-364-4044 or jennette.wilkins@azdoa.gov.
